Transportation - WI DOT (acquired 5/22/2012)

Notes

Town of Glenmore

 Well-No manure or process wastewater applications within 100 feet
Incorp 200' upslope

 Concentrated Flow - No Manure or Wastewater applications

0 0.1 Miles

Scale 1: 4,956

This map has been developed utilizing Nutrient Management Practice Standards to identify other risk areas such as concentrated flow areas within the 590 practice standard.

NR 243 SWQMA Option #1-Do not apply manure within 35' (Brown County Ordinance) of a navigable water, conduit to navigable water or within 25' of wetlands; and inject or immediately incorporate manure and process wastewater in all other areas within the SWQMA.
